DEBUT EP from Explanetary through eLefant traks

## EXPLANETARY in on the deal

eLefant traks release 7-piece Australian hip hop group  
Explanetary's debut EP: 'In On The Deal' on May 28.

“...deliciously jazzy hip hop.” - *3D World*

Originally from the **Blue Mountains**, **Explanetary** combine **electronic sounds** with **organic instrumentation** creating distinct Australian raps with live bass, drums, keys and turntables to build a seven piece jazz-hip hop sound.

The EP ranges from downtempo head noddors to electro-fueled breaks and through to some 'In Sound From the Way Out' instrumental **aural adventures**. The three MCs embrace their Australian identity and concentrate on finding a unique style and sound that varies from serious issues through to party rockin' rhymes and beats.

**Explanetary** have been receiving high praise through energetic live shows along side acts like **Metabass**, **Koolism** and **Roots Manuva** at events such as 'Vibes on a Summers Day' and 'Freaky Loops'. They've also played at the last two 'Urban Expressions' Australian Hip Hop festivals with **Blackalicious** and **J-Zone**.

Guesting on the EP is **Guro** from Reference Point/Fugleman. The production includes mixing from Australian beats veteran **Rekindle** (*Raised by Wolves*).
